New mpsGO™

The ideal solution for evolving business environments

Happen EKM's new DCA device mpsGO significantly improves monitor reliability, and simply attaches to your device to monitor from the point of print.

- The device provides pass-thru network access
- Detects all devices on the network.
- Can be reset and reprogrammed for use at a new site.
- Operates with reliable and military-grade security from Happen EKM.

New mpsGO™

The ideal solution for evolving business environments

What's in the box:

- mpsGO DCA device
- USB power cable to source power from a connected copier/printer.
- USB to Australian power plug to source power independent from the device.
- 30 cm network cable to provide pass-thru network access, removing the need for an extra network port.
- Industrial Velcro tape allows mounting onto the rear of a copier/printer, ensuring the unit comes back to your office with the return of a device.
- USB Technician key (one supplied per 10 units).
